The home-coming of Adm. Dewey has caused a boom in the dry goods trade. The demand for ordinary cloth and prints for conversion into bunting has nearly exhausted the supply, and it has been found necessary to take higher grades of materials, including what is known an "sixty-four square." In the trade it is estimated that at least 500,000 pieces, or 25,000 yards of bunting will be used to welcome the hero of Manila. This extraordinary demand, coming on a rising market, it is said, will influence prices greatly.
